

Dear FCC,

Please don't take Air1 off the radio. This station means alot to me and my fellow Christian peers. Instead of listening to Howard Stern, we enjoy listening to Air1 where it is clean. IT provides the waves with cleanliness for younger listeners. Air1 helps the community by giving back to the needy & actually cares for the public. Air1 is a public interest because theres no other alternative christian station and the artist on there get thier recognition from this station. I would actually like it if you put them on a higher power, where we could hear them better here in Las Vegas.
